

Bali

SAVING WATER

The Bali Resort facilities, such as the irrigation system supplied by recycled water, and the hotel equipment have been designed to optimize water management.

You can also help not to waste this precious resource:

- Try using your bathroom and fitness towels multiple times to avoid unneeded washes.
- Be careful when using the taps to avoid any water wastage, when brushing your teeth or shaving for example.
- Inform the Reception in case of water leak.

MANAGING WASTE MORE EFFICIENTLY

A special attention is paid to selective waste sorting: cardboard, paper, metal, glass, plastic, batteries, light bulbs and cooking oils are collected separately, recycled and green waste is composted.

Remember to sort your waste in the Resort:

- Leave your empty bottles on the table, they will be recycled.
- Remember that it is better to refill a plastic bottle at a water fountain instead of throwing it away. You can also use a sport water bottle.
- Used batteries (toxic waste) can be left at the Reception or at the Boutique. We encourage you to use rechargeable batteries when possible.

SAVING ENERGY

An automatic control system of the buildings enables us to optimize the energy consumption. In addition, motion sensors, key card system and low consumption light bulbs have been implemented to reduce our energy needs.

Please remember to:

- Switch off the air conditioning system while opening your windows.
- Remove the key card from the slot, when leaving your room, to switch off power. The ventilation will keep functioning.
- Unplug your chargers from the power socket when not in use.
- Be aware of your environmental impact: you may also offset the CO₂ emissions generated by your flights on the Club Med website.

ENJOY YOUR HOLIDAY IN HARMONY WITH THE HOST COUNTRY

Admire the unique cultural riches from Balinese local villages to sacred monuments and explore the wild side of the “Island of the Gods”.

Help us take care of our environment:

- Do not leave any waste behind.
- Please avoid disturbing and feeding the wildlife.
- Visit the Excursions Center and its excursions. A traveler's charter is available to enjoy the local nature and wonderful heritage while preserving them.

Bintan Island

SAVING WATER

The Bintan Island Resort facilities, such as the irrigation system supplied by recycled water, and the hotel equipment have been designed to optimize water management.

You can also help not to waste this precious resource:

- Try using your bathroom and fitness towels multiple times to avoid unneeded washes.
- Be careful when using the taps to avoid any water wastage, when brushing your teeth or shaving for example.
- Inform the Reception in case of water leak.

MANAGING WASTE MORE EFFICIENTLY

A special attention is paid to waste recycling. Given the local opportunities, plastic, metal and green waste are recovered.

Remember to sort your waste in the Resort:

- Leave your empty bottles on the table, they will be recycled.
- Remember that it is better to refill a plastic bottle at a water fountain instead of throwing it away. You can also use a sport water bottle.
- Used batteries (toxic waste) can be left at the Reception or at the Boutique. We encourage you to use rechargeable batteries when possible.

SAVING ENERGY

An automatic control system enables us to optimize air conditioning, ventilation and lighting of the buildings. Furthermore, the Resort reduces its energy needs thanks to equipment such as a heat recovery system, low-consumption light bulbs and a key card system.

Please remember to:

- Switch off the air conditioning system while opening your windows.
- Remove the key card from the slot, when leaving your room, to switch off power. The ventilation will keep functioning.
- Unplug your chargers from the power socket when not in use.
- Be aware of your environmental impact: you may also offset the CO₂ emissions generated by your flights on the Club Med website.

ENJOY YOUR HOLIDAY IN HARMONY WITH THE HOST COUNTRY

The rich history of Bintan Island is full of tales, marked by piracy, fallen empires and the spice trade. Discover this sumptuous island surrounded in a unique nature and culture.

Help us take care of our environment:

- Do not leave any waste behind.
- Please avoid disturbing and feeding the wildlife.
- Visit the Excursions Center and its excursions. A traveler's charter is available to enjoy the local nature and wonderful heritage while preserving them.

Cherating Beach

SAVING WATER

At Cherating Beach Resort, the lagoon system that recycles water for irrigation and the Resort equipment have been designed to optimize water management.

You can also help not to waste this precious resource:

- Try using your bathroom and fitness towels multiple times to avoid unneeded washes.
- Be careful when using the taps to avoid any water wastage, when brushing your teeth or shaving for example.
- Inform the Reception in case of water leak.

MANAGING WASTE MORE EFFICIENTLY

A special attention is paid to selective waste sorting: cardboard, paper, plastic, batteries and cooking oils are collected separately, recycled and green waste is composted.

Remember to sort your waste in the Resort:

- Used batteries (toxic waste) can be left at the Reception or at the Boutique. We encourage you to use rechargeable batteries when possible.

SAVING ENERGY

Cherating Beach Resort is built according to traditional longhouses architecture, enabling us an adaptation of the buildings to local climate. Furthermore, the Resort reduces energy consumption with a heat recovery system, low-consumption light bulbs and a key card system.

Please remember to:

- Switch off the air conditioning system while opening your windows.
- Remove the key card from the slot, when leaving your room, to switch off power. The ventilation will keep functioning.
- Unplug your chargers from the power socket when not in use.
- Be aware of your environmental impact: you may also offset the CO₂ emissions generated by your flights on the Club Med website.

ENJOY YOUR HOLIDAY IN HARMONY WITH THE HOST COUNTRY

Located in a unique and preserved area, discover the natural riches of a 65 hectares forest, showcasing outstanding biodiversity.

Help us take care of our environment:

- Do not leave any waste behind.
- During the nesting period, in case of an encounter, avoid disturbing the turtles.
- Please avoid feeding the monkeys as they are wild animals.
- Visit the Excursions Center and its excursions. A traveler's charter is available to enjoy the local nature and wonderful heritage while preserving them.

水資源の保護

石垣島リゾート施設は、水の再利用による植樹への給水システムなど、水の使用量を最適化するように設計されています。

この貴重な水資源を無駄にしないように、ご協力をお願いいたします。

- バスタオルやフィットネスタオルは可能な限り複数回ご使用いただくことで、洗濯に使用する水の量を削減できます。
- 歯磨きやシェービング時に不要の場合は蛇口を閉め、水の浪費を避けることができます。
- 水漏れを発見した場合はフロントデスクにお知らせください。

より効率的な廃棄物の処理・管理

ごみの分別にご協力ください。: 紙、厚紙、金属、ガラス、プラスチック、電池、電球や食用油を別々に回収・リサイクルしております。

- テーブルの上にあなたの空の瓶やペットボトルはテーブルの上に置いてください。リサイクルいたします。
- ペットボトルを使用し、ウォーターディスペンサーにて水の補充をお願いいたします。
- 使用済みの乾電池（有毒廃棄物を）はレセプションもしくはブティックにて回収いたします。また、可能な限り充電式の電池の使用をお勧めいたします。

エネルギーの節約

お部屋の冷暖房、換気や照明に自動コントロールシステムを導入し、また低電力消費電球の使用やモーションセンサーの設置など、リゾートの設備はエネルギー消費を低減するための工夫が施されています。

再度ご確認ください:

- 窓をお開けの際は、エアコンをお切りください。
- 部屋を出るときは、カードソケットからお部屋のカードキーを抜き、電気・電源をお切りください。換気システムは常時作動しております。
- 使用しない際は電源ソケットから充電器等のコンセントを抜いてください。
- 環境への影響をご理解ください。: 専門企業のウェブサイトを通して、お客様がご利用になられた航空便で発生した炭素排出量をご確認いただくことができます。

訪問国とのハーモニーを感じながらの休暇

リゾートは国立公園に指定されたエリアに位置しています。自然と文化の豊かさを発見するための理想的なエリアです。

この素晴らしい環境の保全にご協力ください。

- ゴミや廃棄物を放置しないでください。
- 野生生物とその生態系を守るため、野生動物に餌を与えないでください。
- オプショナルツアーデスクにて配布しております、トラベラーズチャーターによる推奨事項に目をお通しください。
