

PRODUCT CATALOG MAY TO OCTOBER 2018

WELCOME TO THE WORLD OF OPI

OPI has revolutionized the nail care industry since its inception in 1981, combining leading edge technology with an unerring sense of style, whilst maintaining an incomparable reputation for excellence and innovation around the world.

As the number one salon brand worldwide, OPI is committed to providing premium services with high-quality products to support both our salon customers and their clients. Education is at the heart of OPI and we pride ourselves in working with you, the nail professional, toward the right path for success. OPI offers a range of courses designed to accelerate your personal development and support business growth. Always at the forefront of innovation, OPI ensures you and your business are always up to date with the latest trends and techniques to remain competitive in the industry. OPI is currently available in over 100 countries and supplies a full line of professional products, nail treatments, finishing products, lotions, manicure/ pedicure products, files, tools, gels and acrylics.

elevates a woman's sense of self through the power of color. Offering iconic shades in 3 color systems – lacquer, Infinite Shine and GelColor - provides the client with the finish they desire and you as the professional the opportunity to upgrade your services. OPI enables you to complete every service with exceptional formulas, fashionable colors, and iconic names. OPI's heavily-pigmented nail lacquers are available in over 200 shades in a super-rich, 7-days chip-resistant professional formula. OPI Infinite Shine, available in over 150 shades, is a gel- effect long wear lacquer, providing rich color, intense shine and 11days of gel-like wear – without the need for light curing or soak-off removal. GelColor by OPI, available in over 140 shine-intense shades, promises a salon-perfect finish with a 3 week glossy wear. Matching iconic OPI lacquer shades across the 3 color systems allows you to maximise your business potential and encourages upgrading your manicure services.

OPI continues to set the standards and trends, and are proud to deliver products that give you the exceptional results that the world has come to expect from the leading professional nail brand worldwide.

color brings **EMOTION** to life

OPI is the professional nail brand that

Sive yourself a RAISE

Upgrade your clients to OPI GelColor and earn up to 40% more per manicure service.*

* vs. a classic lacquer manicure

O·P·I GELCOLOR

POMPEII PURPLE

Did you know **you can increase revenue** every time you upgrade clients from a regular manicure to an **OPI GelColor** manicure?

Couple that with OPI's lowest cost per service and we're talking some serious profitability.

OPISTEP**BY**STEP OPI GelColor Nail Prep

Every GelColor nail service should begin with prep. Prep is a systematic process that ensures nails are clean and free of debris and oil that can cause service breakdown. By following the OPI GelColor Nail Prep Step by Step, you can assure your clients have maximum wear of their OPI GelColor system.

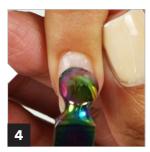

Wash your hands. Have clients wash their hands with Swiss Blue Liquid Hand Soap. Sanitize hands with Swiss Hand Guard Antiseptic Handwash Gel.

Remove any polish with an Expert Touch Nail Wipe saturated with Expert Touch Lacquer Remover.

Trim nails if needed and shape as desired with the EDGE White 240 Grit File.

Dip the tip of the PusherPlus Multi-Use Pusher into a small amount of Swiss Hand Guard. Push back the eponychium to reveal the cuticle.

OPTIONAL

Lightly buff the nail surface

with the 220-grit side of

FLEX 220/280 Buffer.

Gently remove residue with an Expert Touch Nail Wipe saturated with N.A.S. 99.

Use the Dexterity Dual-Edge Nail Plate Cleaner to remove excess non-living tissue.

Cleanse nail with an Expert Touch Nail Wipe saturated with N.A.S. 99 and allow to dry.

PRODUCTS USED

Apply 1 coat of Bond-Aid pH Balancing Agent to each nail. Allow to dry.

Remove any hangnails and remaining non-living tissue with the AccuNip Professional Precision Nipper.

Final prepped nail.

OPISTEP**BY**STEP OPI GelColor Application

OPI GelColor system is available in 140+ iconic OPI shades. Ideal for gel polish enthusiasts that want long-lasting wear providing up to 3 weeks of wear. The fast application and 30 second cure time makes OPI GelColor the system of choice for gel polish services.

Shake **GelColor Base Coat** vigorously for 1 minute.

To properly prepped nails, apply 1 thin coat leaving a tiny margin around the cuticle area. Cap the free edge.

Cure 30 seconds in the **Dual** Cure LED Light.

Shake **GelColor** shade of choice vigorously for 1 minute.

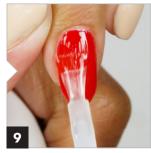

Apply 2 thin coats leaving a tiny margin around the cuticle area. Cap the free edge to prevent shrinkage.

Cure each coat 30 seconds in the **Dual Cure LED Light**.

Shake **GelColor Top Coat** vigorously for 1 minute.

Apply 1 thin coat leaving a tiny margin around the cuticle area. Cap the free edge to seal in **GelColor**.

Cure 30 seconds in the **OPI Dual Cure LED Light**.

Remove gel residue with a **Nail Wipe** saturated with **N.A.S. 99**.

Apply a drop of **ProSpa Cuticle Oil** and massage into cuticles.

N.A.S. 99 Cleansing Solution

OPI ProSpa Nail & Cuticle Replenishing Oil

OPI GelColor Base Coat

- OPI GelColor Shade of Choice OPI GelColor Top Coat
 - OPI Dual Cure LED Light

OPI GelColor's shine-intense shades cure in 30 seconds and last for weeks! From its distinctive bottle to its unbeatably fast application and lightning speed cure, OPI GelColor redefines the rapidly growing gel service category.

Prepare the nail following **OPI GelColor Nail Prep Steps**.

Shake **OPI GelColor Base Coat** vigorously for 1 minute to thoroughly mix. Wipe excess **Base Coat** from the stem and brush when removing from the bottle.

Apply a thin coat down the center of the nail and then to each side leaving a tiny margin around the cuticle. Cap the free edge to prevent shrinkage.

Cure 30 seconds in the **OPI Dual Cure LED Light**.

Shake **OPI GelColor Bubble Bath** vigorously for 1 minute to thoroughly mix. Wipe excess color from the stem and brush when removing from the bottle.

Apply a very thin coat to the center of the nail and then to each side leaving a tiny margin around the cuticle (coverage may look sheer). Cap the free edge to prevent shrinkage.

Cure 30 seconds in the **OPI Dual Cure LED Light**.

Apply a second very thin coat down the center of the nail and then to each side leaving a tiny margin around the cuticle. Cap the free edge. The second coat will provide true color and full coverage.

Remove gel residue with an **Expert Touch Nail Wipe** saturated with **N.A.S. 99**. This will allow you to create a crisp smile line.

Shake **OPI GelColor Alpine Snow** vigorously for 1 minute to thoroughly mix. Wipe excess color from the stem and brush when removing from the bottle.

Apply a thin coat of **OPI GelColor Alpine Snow** to the tip of the nail in an arched smile line. Cap the free edge. If necessary, detail the smile line using a **Golden Point Brush** dampened with **N.A.S. 99**.

OR

Using a **Golden Point Brush**, apply a tiny dot of **OPI GelColor Alpine Snow** to the top and each corner of nail to position the smile line. Connect the dots with a thin line of **GelColor** in an arched shape.

Fill in and cap the free edge.

13

Cure 30 seconds in the **OPI Dual Cure LED Light**.

Shake **OPI GelColor Top Coat** vigorously for 1 minute to thoroughly mix. Wipe excess **Top Coat** from the stem and brush when removing from the bottle.

Apply a very thin coat to the nail leaving a tiny margin around the cuticle. Cap the free edges to seal in color.

Cure 30 seconds in the **OPI Dual Cure LED Light**.

Remove gel residue with **Expert Touch Nail Wipe** saturated with **N.A.S. 99**.

Apply a drop of **ProSpa Nail** & **Cuticle Replenishing Oil** and massage into cuticles.

Finished look.

PRODUCTS USED

- OPI GelColor Base Coat
- OPI GelColor Bubble Bath
- OPI GelColor Alpine Snow
- OPI GelColor Top Coat
- OPI Dual Cure LED Light

Following the proper removal of OPI GelColor is important to avoid damaging the natural nail. OPI GelColor removes in as little as 15 minutes.

Both client and technician wash hands with **Swiss Blue Soap**. Sanitize hands with **Swiss Hand Guard Gel**.

File the free edge and sidewalls to break the seal of each nail with an **EDGE 240 File**.

Fully saturate the pad of the **Removal Wrap** with **Lacquer Remover**.

ProTip - Fold the top of the removal wrap inward for a more comfortable soakoff experience meanwhile preventing remover liquid from evaporating.

Wrap each finger securely, making sure the pad is placed on top of the nail. For faster removal or clients with colder tempeture hands, place a **Hand Mitt** over each hand and cover with a towel for added heat during removal.

Soak for 15 minutes. **ProTip** - Use light pressure and a twisting motion to remove the wraps.

Use a **Reuseable Cuticle Stick** to gently push off the lifted product from the nail. Push from the cuticle area to the free edge to avoid nail damage.

If any **GelColor** remains, do not scrape the nail, simply rewrap and soak an additional 2-5 minutes.

Cleanse nails with a **Nail Wipe** saturated with **N.A.S. 99**.

OPISTEP**BY**STEP OPI Chrome Effects GelColor Application

Whether your client prefers natural nails or enhancements, transform their nail service with attention getting OPI Chrome Effects. Available in 8 stunning OPI curated Chrome Effects Mirror-Shine shades and non-yellowing OPI Chrome Effects No-Cleanse Top Coat. Follow OPI's GelColor nail prep and application for 2+ weeks of mirror-like shine.

Apply 1 coat of **GelColor Base Coat** to a properly prepped nail. Cap the free edge and cure for 30 seconds.

Apply 2 thin coats of GelColor shade of choice. Do not cap the free edge. Cure each coat 30 seconds. GelColor Black Onyx and Alpine Snow are recommended.

Apply 1 coat of **Chrome Effects No-Cleanse Top Coat**. Do not cap the free edge. Cure 30 seconds. Capping will create a ledge at the free edge.

Apply **Chrome Effects Powder** shade of choice using a sponge tipped applicator. Pick up a small amount with the applicator and rub onto the surface of the nail.

For proper **Chrome Effects** encapsulation, lightly swipe an **EDGE 240 File** against the free edge and sides of nail.

Use a cosmetic brush to dust off excess powder from the entire nail and the surrounding skin. Focus on the cuticle area. Particles are micro-fine and risk cross-contamination.

Apply 1 coat of **Chrome** Effects No-Cleanse Top Coat. Cap the free edge. Cure 30 seconds.

ProTip: Cure 30 seconds in Dual Cure LED Light Cure 60 seconds in Black LED Light or Studio LED Light.

| EDGE White 240 File | OPI Dual Cure LED Light

OPISTEP**BY**STEP OPI Chrome Effects Nail Lacquer Application

For clients who prefer nail lacquer, we thought of them too! Transform their nail lacquer service with attention-getting OPI Chrome Effects. Available in 8 stunning OPI curated Chrome Effects Mirror-Shine shades and OPI Chrome Effects Nail Lacquer Top Coat. Follow OPI's natural nail prep and application for up to 7 days of high-shine wear.

Apply 1 coat of **Natural Nail Base Coat** to properly prepped nails.

Apply 2 thin coats of **Nail Lacquer** shade of choice. Do not cap the free edge. Wait 2-3 minutes until nails are almost dry to the touch; still slightly tacky for powder to attach.

Nail Lacquer Black Onyx and Alpine Snow are recommended.

Apply **Chrome Effects Mirror-Shine Powder** shade of choice using a sponge tipped applicator. Pick up a small amount with the applicator and pat the powder on before rubbing onto the surface of nail.

Use a cosmetic brush to dust off excess powder from the entire nail and the surrounding skin. Focus on the cuticle area. Particles are micro-fine and risk cross-contamination.

Apply 1 thin coat of **Chrome** Effects Mirror-Shine Nail Lacquer Top Coat and wait 2-3 minutes to completely dry.

A wet **Top Coat** will result in a cloudy finish.

Finish with 1 coat of **Nail Lacquer Top Coat**. Cap the free edge.

OPISTEP**BY**STEP Natural Nail Prep

Every natural nail service should begin with prep. Prep is a systematic process that can make a difference in a service that last days or hours. By following OPI's Natural Nail Prep Step by Step, you can assure your clients have maximum wear of OPI Nail Lacquer.

Wash your hands and have clients wash their hands with **Swiss Blue Liquid Hand Soap**. Sanitize hands with **Swiss Hand Guard Antiseptic Handwash Gel**.

Remove any polish with an **Expert Touch Nail Wipe** saturated with **Original Polish Remover** or **Acetone-Free Polish Remover.**

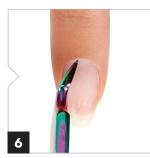

Trim nails if needed and shape as desired with the **EDGE White 240 File**.

Apply **OPI ProSpa Exfoliating Cuticle Treatment** to the cuticle area. Using the **PusherPlus Multi-Use Pusher**, push back the eponychium to reveal cuticle.

Gently remove residue with an **Expert Touch Nail Wipe** saturated with **N.A.S. 99**.

Use the **Dexterity Dual-**Edge Nail Plate Cleaner to remove excess non-living tissue.

Remove any hangnails and remaining non-living tissue with the AccuNip Professional Precision Nipper.

Cleanse nail with an **Expert Touch Nail Wipe** saturated with **N.A.S. 99** and allow to dry.

Final prepped nail.

OPISTEP**BY**STEP Infinite Shine Long-Wear Lacquer System Application

Get up to 11 days of gel-like wear and shine in a lacquer-easy formula!

Infinite Shine, a professional 3-step system offers the high-shine and long-wear of a gel manicure with the ease of application and removal of nail polish. New Primer & Gloss featuring exclusive ProStay technology for up to 11 days of gel-like wear & shine.

Prepare the nail following OPI Natural Nail Prep Steps. Apply one coat of **Bond-Aid pH Balancing Agent** and allow to dry.

Shake **Infinite Shine PRIMER** to thoroughly mix. Wipe excess **PRIMER** from the stem and brush when removing from the bottle.

Apply a thin layer down the center of the nail and then to each side of the nail leaving a tiny margin around the cuticle. Cap the free edge to prevent shrinkage.

Shake **Infinite Shine COLOR** to thoroughly mix. Wipe excess color from the stem and brush when removing from the bottle.

Apply two thin layers down the center of the nail and then to each side leaving a tiny margin around the cuticle. Cap the free edge to avoid shrinkage.

Shake **Infinite Shine GLOSS** to thoroughly mix. Wipe excess **GLOSS** from the stem and brush when removing from the bottle.

Apply a thin layer down the center of the nail and then to each side leaving a tiny margin around the cuticle. Cap the free edge to seal in color.

Once Infinite Shine GLOSS is dry to the touch, apply a drop of OPI ProSpa or Avoplex Nail & Cuticle Replenishing Oil to cuticles.

Finished look.

PRO TIP

Use as few strokes as possible when applying **Infinite Shine GLOSS** to avoid overworking. Do not use **DripDry** or **RapiDry** Spray.

OPI Nail Lacquer sets the bar for performance and fashion with over 160 trend-setting colors, each one as distinct and individual as the most talked about shade names in the industry.

Prepare the nail following OPI Natural Nail Prep Step by Step. Apply one coat of Bond-Aid pH Balancing Agent and allow to dry.

Shake your favorite **OPI Base Coat** to thoroughly mix. Wipe excess **Base Coat** from the stem and brush when removing from the bottle.

Apply a thin layer down the center of the nail and then to each side of the nail leaving a tiny margin around the cuticle. Cap the free edge to prevent shrinkage.

Shake **OPI Nail Lacquer** to thoroughly mix. Wipe excess color from the stem and brush when removing from the bottle.

Apply a thin layer down the center of the nail and then to each side leaving a tiny margin around the cuticle. Cap the free edge to prevent shrinkage.

To ensure full coverage apply a second thin layer using the same technique in step 5. Cap the free edge.

Shake your favorite **OPI Top Coat** to thoroughly mix. Wipe excess **Top Coat** from the stem and brush when removing from the bottle.

Apply a thin layer down the center of the nail and then to each side leaving a tiny margin around the cuticle. Cap the free edge to seal in color.

Once **OPI Top Coat** is dry to the touch, apply a drop of **OPI ProSpa Nail & Cuticle Replenishing Oil** to cuticle.

Finished look. For quicker drying time, mist nails with **RapiDry Spray Nail Polish Dryer** or apply 1-2 drops of **DripDry Nail Lacquer Drying Drops**.

WE'RE ABOUT TO CHANGE THE MANI/PEDI. READY?

Introducing the OPI ProSpa collection. Developed with renowned dermatologists, featuring a proprietary blend of cupuaçu butter & white tea extract plus peptides, to take skin and your salon's business to the next level.

Elevate your services with techniques and tips at opi.com/prospa

KEY INGREDIENT: CUPUAÇU BUTTER

- Brazilian superfruit with 9 essential fatty acids for unparalleled moisture (240% more moisturizing than lanolin)
- Niacin (B3) has moisturizing and anti-aging properties
- 9 free-radical fighting antioxidants protect skin

Our Secret Ingredient: Dermatologist Expertise

To develop this first-of-its-kind salon offering, OPI teamed with Dr. Zena Gabriel, a practicing dermatologist and expert in her field. Combining her skincare savvy with OPI's knowledge of all things mani/pedi, we created a line of salon specific formulas that deliver on both results and client experience.

"ProSpa does more than just smell good. These formulas take amazing facial skincare ingredients & technologies and use them to create products that bring the same benefits to your hands & feet."

 DR. ZENA GABRIEL, MD board-certified dermatologist newport beach, CA

Elevate Your Services

OPI ProSpa products combined with OPI's tiered manicure and pedicure services are designed to enable you as a Nail Technician to provide the utmost care for your clients by addressing their individual needs.

pamper pedicure (50 - 70mins)

Soothe, relax and pamper with the ultimate pedicure experience.

The OPI ProSpa Pamper Pedicure includes unparalleled callus softening, exfoliation and moisture & protection. An extended massage combined with acupressure to reduce stress, relieve tension will leave you feeling relaxed and renewed.

> **O**·**P**·I PRO SPA s k i n c a r e h a n d s & f e e t

Every manicure service should begin with proper prep. Prep is a systematic process that can make a difference in lasting wear. By following OPI's Natural Nail Prep Step by Step, you can assure your clients have maximum wear of OPI Lacquer, Infinite Shine, or GelColor.

Wash your hands and have clients wash their hands with **Swiss Blue Liquid Hand Soap**. Sanitize hands with Swiss Hand Guard Antiseptic Handwash Gel.

Remove any polish with an **Expert Touch Nail Wipe** saturated with **Expert Touch Lacquer Remover**.

Shape nails to desired shape with an EDGE White 240 File. For nails with deep ridges, discoloration or peeling, buff nail surface with a FLEX Silver/Moss 220/280 Buffer.

Apply OPI ProSpa Exfoliating Cuticle Cream to the cuticle area (If providing an OPI GelColor service, use Swiss Hand Guard to detail the cuticles instead).

Using the **PusherPlus Multi-Use Pusher**, push back the eponychium to reveal the true cuticle. Gently remove residue with an **Expert Touch Nail Wipe** saturated with **N.A.S. 99**.

Use the **Dexterity Dual-Edge Nail Plate Cleaner** to remove excess non-living tissue.

Remove any hangnails and remaining non-living tissue with the AccuNip Professional Precision Nipper.

Cleanse nail with an **Expert Touch Nail Wipe** saturated with **N.A.S. 99** and allow to dry.

OPIPROSPA Signature Manicure

Set your salon apart with this "can't live without" manicure service. Your clients will experience the quintessential OPI ProSpa products through exfoliation and intense moisture combined with a relaxing massage and acupressure. Your client will love the improved texture and appearance of their hands (and mood) after this signature service.^{*}

1 Prep hands and nails following OPI ProSpa Manicure Prep step-by-steps

If your client is in a hurry, **OPI GelColor** is the perfect system. It cures under an LED light, which means there is no drying time so she can get in, out and on with her day. Otherwise, move onto step 2.

Apply a generous dollop of **OPI ProSpa Microexfoliating Hand Polish** and gently apply to skin on top of hand and arm using a circular motion.

Exfoliate hand and arm for approximately 2 minutes. Use warm damp towels to remove scrub. Repeat on other hand.

Apply a generous dollop of OPI ProSpa Moisture Whip Massage Cream to your hands and warm between your palms.

Use the **OPI ProSpa Manicure Massage** to massage the hands, wrists, and forearms for 5 minutes.

Gently remove residue with an **Expert Touch Nail Wipe** saturated with **N.A.S. 99.**

Apply your client's **OPI Nail Lacquer or Infinite Shine** shade of choice following the application steps.

Apply **OPI ProSpa Nail** & **Cuticle Oil** and gently massage in.

Mist OPI ProSpa Moisture Bonding Ceramide Spray over the entire hand and arm.

PRODUCTS USED

- ProSpa Micro-exfoliating Hand Polish
- ProSpa Moisture Whip Massage Cream
- Expert Touch Nail Wipe
- N.A.S. 99
- ProSpa Nail & Cuticle Oil
- ProSpa Moisture Bonding Ceramide Spray

Every pedicure service should begin with proper prep. Prep is a systematic process that can make a difference in a service that lasts days or hours. By following OPI's Natural Nail Prep Step by Step, you can assure your clients have maximum wear of OPI Lacquer, Infinite Shine or Gelcolor.

Fill a pedicure tub with warm water and 1 scoop of **OPI ProSpa Soothing Soak**. Soak for 2 minutes.

Dry foot and remove all color from nails. Trim nails if needed and shape with an **EDGE White 240 File**. For nails with deep ridges, discoloration or peeling, buff nail surface with a **FLEX Silver/Moss 220/280 Buffer**.

Apply **OPI ProSpa Exfoliating Cuticle Cream** to each cuticle. If you're providing an OPI GelColor service, use Swiss Hand Guard on each cuticle.

Use the **Pusher Plus Multi-Use Pusher** to push back the eponychium to reveal the true cuticle. Gently remove residue with an **Expert Touch Nail Wipe** saturated with **N.A.S. 99**.

Use the **Dexterity Dual-Edge Nail Plate Cleaner** to remove excess non-living tissue.

Remove any hangnails and remaining non-living tissue with the **AccuNip Professional Precision Nipper**.

Cleanse nails with an **Expert Touch Nail Wipe** saturated with **N.A.S. 99** and allow to dry.

OPIPROSPA Signature Pedicure

Create a new standard in pedicure services that keeps your clients (and their friends) coming back. This signature pedicure service includes the quintessential OPI ProSpa products to soak, smooth callused feet, exfoliate and lock in moisture combined with a relaxing massage and acupressure techniques. Feet are rejuvenated, clients rejoice!*

1 Prep feet and toenails following OPI ProSpa Pedicure Prep step-by-steps

Apply **OPI ProSpa Advanced Callus Softening GeI** to the heel, ball of foot and other callused areas. Set the heel of the foot on a soft towel and let it sit for 2 minutes.

Use the **OPI ProSpa Dual Sided Foot File** to gently exfoliate and remove calluses. Remove and discard the disposable grit after each service. Properly sanitize the plastic foot file.

Use a sponge to cleanse and thoroughly rinse both feet. Remove both feet from the tub and dry with a towel.

Apply a generous dollop of **OPI ProSpa Exfoliating Sugar Scrub** and gently exfoliate foot and leg using a circular motion.

Rinse foot in pedicure tub. Repeat on other foot. Cover one foot with a warm, dry towel.

Apply a generous dollop of OPI ProSpa Moisture Whip Massage Cream to your hands and warm between your palms.

Use the **OPI ProSpa Pedicure Massage** technique to massage the foot, ankle and calf for 5 minutes. Gently remove product residue from nails with an **Expert Touch Nail Wipe** saturated with **N.A.S. 99**.

Apply your client's choice of **OPI Nail Lacquer** or **Infinite Shine** following the application step by steps.

Apply one drop of **OPI ProSpa Nail & Cuticle Oil** to each cuticle and gently massage in.

OPISTEP**BY**STEP OPI Axxium Nail Prep

Every hard gel service begins with nail prep. Prep is a systematic process of preparing nails for a salon service and can make the difference between a service that last weeks or days. Proper prep ensures nails are clean, free of debris and oil that can cause service breakdown or lifting.

Both client and technician wash hands with Swiss Blue Soap. Sanitize hands with Swiss Hand Guard Gel.

Remove any polish with a Nail Wipe saturated with Lacquer Remover.

Trim nails if needed and shape as desired with the EDGE 240 File.

Dip the tip of the **PusherPlus** Cuticle Pusher into a clean dappen dish filled with Swiss Hand Guard Gel. Push back the eponychium to reveal the true cuticle (non-living tissue).

Gently remove residue with a Nail Wipe saturated with N.A.S. 99

Use the Dexterity Nail Plate Cleaner to remove excess non-living tissue.

remaining non-living tissue with the AccuNip Cuticle Nipper.

Use an EDGE 180 File to remove shine and any non-living tissue left on the nail plate.

Cleanse nails with a Nail Wipe saturated with N.A.S. 99.

Apply 1 coat of Bond-Aid to each nail. Allow to dry.

OPISTEP**BY**STEP OPI Axxium Application: Pink & White Makeover Sculpt

Have a client who loves Pink & White but their nail beds are short or even bitten? Axxium Pink & White Makeover Sculpt is the perfect solution! By following the OPI Axxium Pink & White Makeover Step by Step, you can give your clients an elongated nail bed.

After **OPI Axxium Nail Prep**, apply **FreeForm** to each nail.

Apply 1 coat of **Bond-Aid** to each nail. Allow to dry.

Brush on a thin layer of **Gel Base**, leaving a small margin near the cuticle area and the sidewalls. Cap the free edge. Cure 1 minute in Manual mode.

Using **Opaque Pink Sculpture Gel** extend the nail bed.

To extend the nail bed, place the bead where the form meets the natural nail. Continuously float the product down from left to right maintaining a U shape. Continue to float the gel up towards the cuticle area. Repeat if necessary.

Cure 1 minute in Manual mode using a continuous in and out motion for the first 10 seconds.

Using **Soft White Sculpture Gel** place the bead where the form meets the new nail bed.

Work the product upward and outward to the right side to build the smile line. Do not cure.

Apply another bead of **Soft White Sculpture Gel** and work the product upward and outward to the left side to build the other side of the smile line. Cure 1 minute in Manual mode using a continuous in and out motion for the first 10 seconds.

Brush down a bead of Luminous White Overlay Gel over the Soft White Sculpture Gel.

Use a clean up brush and a small amount of **N.A.S.99** to clean up the smile line. Cure 1 minute in Manual mode.

If neccessary, apply a very thin layer of **Clear Sculpture Gel** to fill in low spots. Cure 1 minute in Manual mode.

Carefully remove the **FreeForm**.

Cleanse nails with a **Nail Wipe** saturated in **N.A.S. 99**.

Begin to file the sidewalls with the **EDGE 180 File**. Proceed to shape and contour by using medium pressure to file the surface. Contour around the cuticle area and sidewalls, using a curved filing motion to maintain the nail radius. Leave bulk of the product at the apex.

ProTip: Don't forget to check the shape from the client's point of view.

Using the **FLEX 100/180 Buffer**, smooth the surface.

Remove excess dust. Cleanse nails with a **Nail Wipe** saturated in **N.A.S. 99**.

Apply preferred choice of **Top Coat**.

Remove any hangnails and remaining non-living tissue with the AccuNip Cuticle Nipper

Use an EDGE 180 File to remove the shine and any non-living tissue left on the nail plate. Cleanse nails with a Nail Wipe saturated with N.A.S. 99 and allow to dry.

Apply one coat of **Bond-aid** and allow to dry.

Apply one coat of **Bondex** and allow to dry.

PRODUCTS USED

OPISTEP**BY**STEP Absolute Pink & White Makover Sculpt

Have a client who loves Pink & White but their nail beds are short or even bitten? Absolute Pink & White Makeover Sculpt is the perfect solution! By following the OPI Absolute Pink & White Makeover Step by Step, you can give your clients an elongated nail bed.

After **OPI Enhancement Prep**, apply a FreeForm to each nail.

Apply one coat of **Bondaid**, allow to dry then apply **Bondex** to the natural nail plate

Apply a large-size bead of **Makeover Pink Powder** at the natural smile line.

Press the bead from side to side tapering to the sidewalls and toward the cuticle are. Pull the bulk of the bead toward you down the center of the nail to extend the smile line and build the apex. Extend the smiling line by dragging the side of your brush from each corner point to center.

Apply a large-size bead of **Perfect White Powder** to the form against the extended smile line. Using the tip of the brush, push the acrylic into each corner.

Smooth the surface of the free edge and blend into the apex.

Remove the form.

With an EDGE 180 File or e-file, shape and contour the nail by tapering near the sidewalls and cuticle area. Leave bulk of the product at the apex.

Smooth the surface of the enhancement with a **FLEX 100/180 Buffer**. Remove dust.

OPISTEP**BY**STEP Absolute Pink & White Fill

Why is a fill performed? As the nail grows out, the arch grows toward the free edge and the nail becomes top heavy thus prone to breakage and lifting. By following OPI Absolute Fill Step by Step every 2-3 weeks, you can rebalance and relocate the apex – and fill the unsightly gap!

Remove lifting product and thin down the enhancement with an **EDGE 180 File** or e-file.

ProTip: To prevent rings of fire, avoid the e-file from coming in contact with the natural nail.

Remove excess dust. Cleanse nails with a **Nail Wipe** saturated with **N.A.S. 99**.

Push back the eponychium to revel the true cuticle with a **PusherPlus Cuticle Pusher** dipped in **Swiss Hand Guard Gel**.

Cleanse nails with a **Nail Wipe** saturated with **N.A.S. 99**.

Use the **Dexterity Nail Plate Cleaner** to remove excess non-living tissue.

Remove any hangnails and remaining non-living tissue with the AccuNip Cuticle Nipper.

If necessary, use the **QuickCut Nail Trimmer** to trim to the desired length.

File the free edge with an **EDGE 180 File**. Using no pressure, remove shine from the surface with an **EDGE 180 File**.

Remove excess dust. Cleanse nails with a **Nail Wipe** saturated with **N.A.S. 99**.

Apply one coat of **Bond-Aid** to the natural nail. Allow to dry.

Apply one coat of **Bondex** to the natural nail. Allow to dry.

Apply a large bead of **Perfect White** to the free edge and push the product into place to form the new smile line.

Use the tip of the brush to create a crisp, clean edge.

Apply a medium size bead at the stress area. Pull product up against the ledge and smooth a very thin coat over the top of the extension to join the two areas.

Place another medium size bead of **Makeover Pink** near the cuticle area. Pat the product from side to side, leaving a small margin at the cuticle area and sidewalls. Stroke over the nail to blend into existing acrylic.

Shape and contour nails with an **EDGE 180 File** or **e-file**. If using an e-file, use a fine bit

Remove excess dust.

Smooth surface of nails with **FLEX 100/180 Buffer**.

Remove excess dust. Cleanse nails with a **Nail Wipe** saturated in **N.A.S. 99**.

Finish with Top Coat choice.

Finished Look.

OPISTEP**BY**STEP Liquid & Powder System - Removal by Soaking

Following the proper removal of OPI Liquid & Powder System is important to avoid damaging the natural nail. For an alternate version to soaking, see removal by wrapping.

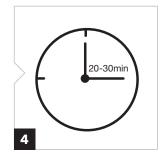

If necessary, use the **QuickCut Nail Tip Trimmer** to remove any artificial extensions.

Thin down the enhancement. If using an e-file, use a remover bit to reduce bulk. If using a hand file, use an **EDGE 180 File**.

Pour Artificial Nail Remover into glass container deep enough for fingers to be fully submerged. Drape towel over the hand to hold in warmth.

Soak for 20-30 minutes

With the fingers still submerged, gently push off acrylic with a **Reusable Cuticle Stick**.

Remove any leftover residue with **Lacquer Remover**.

Finished Look.

OPI NAIL PREP

Every OPI Service should begin with proper prep. OPI has developed quality products designed specifically for nails as well as a systematic process that ensures nails are clean and free of debris and oils that can cause service breakdown. By using OPI nail prep products to complement OPI color or enhancement systems you can ensure your clients have maximum wear.

Swiss Blue Liquid Hand Soap

The perfect start to a salon service, thoroughly cleansing hands of bacteria and germs without drying the skin.
