Beauty Trend 2015

Trending across the internet, social media platforms and several magazines, the hottest topic splashed across all media platforms is: Getting the perfect **V-Shape** face.

The **V-Shape** Face is a small, slim face characterized by a pointed chin and soft jawline, forming a **V-Shape**.

However

Sculpting face creams, face contouring massages and plastic surgery are expensive and painful ways in which women try to achieve the perfect **V-Shape** face -

The Standard of Modern Beauty

Introducing L'Oréal Professionnel's Exclusive **VLOOK** Service

The 1st VLOOK

'FACE SLIMMING' hair cut + 'FACE CONTOURING' hair colour

3 STEPS TO UNLOCK YOON EUN HYE'S HAIR SECRET

1 Consult your hairstylist

Your stylist will identify your face shape*

*These face shapes are only representative.

2 'Face Slimming' Hair Cut

Top Volume

A bouncy texture on the crown area of your hair serves to create the illusion of a longer and narrower face

Airy Fringe

A see through fringe hides a section of your face, making it look smaller

Face Framing Layers

Softens your jawline to optically reduce the size of the lower part of your face

3 'Face Contouring' Hair Colour

A Lighter Crown Colour

Serves to visually 'elongate' your face because a lighter colour puts more focus on your crown area

B Darker Shade Around Face

Your face will look 'smaller' when depth and 'shadows' are introduced to your total hair look

C Ombré Highlights

Colours that suit your skin tone will be placed on strategic parts of your hair to create movement and dimension for a good colour contrast. This helps to 'contour' your face

Yoon Eun Hye wears Majirel 5.5 Mahogany Brown on a layered hair cut with an airy fringe.

VLOOK SALONEXCLUSIVE SERVICE

The **VLOOK** Service is a permutation of the different methods of 'face slimming' cut and 'face contouring' colouration, which will be prescribed based on the diagnosis of your face shape.
