5 Troubles 1 Solution

Healthy scalp leads to healthy hair

360° Beautiful Hair

Hair that is beautiful from any angle. Milbon Scalp series restores scalp health for a healthier, shinier hair.

Solve 5 Troubles with 1 Line

Based on survey, we noticed that women in the world encounter 5 common scalp troubles.

Itchy Dandruff Dry Sticky Smelly

Milbon Scalp Series is a simple scalp care that helps to solve the 5 troubles with 1 solution.

A perfect line-up consisting of "Cleansing Spa Gel" which is a professional in-salon item, and home care set of "Shampoo", "Treatment" and "Lotion".

Enjoy the refreshment of the scalp and hair with this Milbon Scalp Series.

Normalizing Care Technology

Milbon discovered that the percentage of fatty acids in sebum tends to be high in all 5 of the scalp troubles.

Which explains why "excess fatty acids" cause scalp troubles.

For that reason, we have developed the "Normalizing Care Technology" which helps to remove excess fatty acids and replenish moisture to hair.

Simple daily care for utmost pleasure.

Caring for the scalp is not a difficult task
3 steps which include shampoo, treatment and lotion.
Start your scalp care routine now just like you usually do for your skin.

Inspired by Nature

We aim to shower our customers with some relaxation where they get at spa.

To make all these possible, besides functions, "fragrances" are also taken into consideration.

The fragrances are inspired by nature, with the "Fresh Forest" scent that contains "green note" of citrus and fruity scents.

Enjoy and have a relaxing time with the pleasing fragrances from the Milbon SCALP Series.

* "Fresh Forest" scent is used in shampoo, treatment and lotion.

Increase the density of the internal hair with "SSVR Silk"

Stick-Shaped Voids is the common phenomenon shown in the damage hair of women in the world.

SSVs (Stick-Shape Voids) are hollow tubular gaps that form in chemically treated hair - and which seem to contribute to loss of shine, split end, and breakage.

What is more important is that it affects the hair density. From there, we found that among all the repairing ingredients, "SSVR Silk" is testified to help improve the hair density.

SSVR Silk contains in all line-up of Milbon Scalp Series.

* Isostearoly Hydrolyzed Silk [Hair repair ingredient]
